

Does this course work?

Well, our students think so!

I found the course extremely interesting and helpful. The in-depth analysis of the various voice types and the exercises have given me the confidence to go ahead and produce a demo tape to try and break into the voiceover industry. Thank you.

Cherry Yarrow

I have always wanted to do voice over work, this is a great course to get some knowledge for that

Tony Newton

The course is comprehensive in an economical sense of the word. All of the relevant material [and I might add that it's ALL relevant] is sufficiently and successfully covered, but I gathered the impression that this is edited down from a larger, MORE comprehensive course, perhaps 2-3 times in length. Nonetheless, I am tremendously satisfied as I feel that the value received far exceeds the money spent. I've been looking for something like this for more than a year, and I would have gladly paid more than I did. I would definitely recommend. Thank You, Steve!

Jim Allen

It's for beginners (I am one) it's a fast way to know important useful tips, key is to practice a lot. Instructor makes the whole experience fun to learn.

Nour Abyad

I have been doing voice overs for over eight years, and this benefited me a lot.

Joseph Dsouza

For an American audience, I thought this course may seem a bit foreign. But Mr. Hudson breaks down the basics of english-language speech in a universal way. Though this course may be marketed towards voiceover artists, I could see this as an appendage course for public speaking, persuasion, most any verbal communication course.

Mitchell T. Smith

Great class if you're serious about becoming a voice actor. Steve Hudson does a great job explaining each different genre of the voice over industry and his experience is obvious throughout the entire course. Highly recommend.

Todd Bradford

This course is a gem! If you want to learn voice-over, this is the only course you need!

Ole Lauvås

Amazing! Steve Hudson creates an almost instant awareness about voice control from the very start of the course. Thank you so much Steve.

See M. Kumar

I purchased this and a few other voiceover courses and decided to do this one first. In a little over 2 hours I have learned enough to change the way I do voiceovers forever, and will be forever more mindful of the way I speak when doing presentations and my podcast. Thank you for a great course.

Nolan Collins

At this point, I am a professional voiceover artist, this course will take you to the PRO level (no kidding).

Abdullah Alqahtani

At the onset, I came to realize my mistakes, how wrong I was all along. The mental comma principle indeed delivers the message across.

Eduardo Colet

I had always wanted a course on Voice Overs. This course simplified it even though consistent practice is recommended. Thanks Hudson for making the attractive and easy to follow.

Sola Alabi

Interesting! I learned something new. I am excitedly looking forward to applying my new learnings to ministry work, and hopefully, to voice over projects. Thank you very much, Steve!

Ma. Rhodora S. Flores

Very good, it is what I was looking for. It is a great explanation for learning to talk professionally or voice improve.

Elizabeth

Good short practical course on how to become a better voiceover. Which is a skill which can become very handy. Its packed full of content course in just only 1 hour. As not a native speaker it was not that easy to do the exercises. :) But it was fun to try to improve (speaking) with more energy, controlling speed, pace etc. Will try to redo the courses many more times to improve.

Thomas

This course is hands on, You start improving how you read and apply your voice in the first 20 min. You are given the tools and all you need to do is apply, compare and practice.

Tania Ras-Devereux

I've taken several other voice over courses and even though this course is shorter then the others, it contains a plethora of information that can not be over looked, It has made me gain more confidence and knowledge to the art of becoming a voice over personality, knowing that I can attack my next project confidently. A must have for anyone serious about learning how to speak and phrase properly. very very well done.

Cory Shelnick

This course delivers exactly what it says it will. At the beginning of the course you are asked to record a number of lines to the best of your ability so you can compare it with what you sound like at the end. I was skeptical about how much I was improving during the course... I mean, sure, I learned some good advice but I didn't feel any huge improvement.

Then I recorded the final readings and compared them to my firsts and wow... mind blown!

This course gives basic advice and intriguing explanations for how to improve your voice while reading a script that has monumental results. ...All in all this is a course where the results speak for themselves and I highly suggest it. (2,3)

Malcolm Tolman

I really enjoyed this course. I found that his method makes it very easy to analyze the most complex blocks of reading and devise how to get through it -- all on the fly! Great job. Totally worth my time and money!

Kenneth Gonzales

A really excellent voice over course. Great content and teaching style. Concise, well-structured, enjoyable and effective.

Eddie Pratt

Very comprehensive course! As an author who records my audio books, this course helped me to capture and remain mindful of the nuances of delivery that will make a marked difference in my general communications as well.

Samuel Crumby

Fantastic course, within the first going over of the course my recording voice has markedly improved. I wanted to improve my voice in order to record my own audio books and i wasn't disappointed, i feel a lot more confident now and am excited to hear what my voice sounds like after the hourly practice recommended by the course creator. If i could give it 6 stars i would!!

L.R. Thomas

Excellent course. Valuable content and excellent exercises.

Mark Newman

“...the information gathered during the class has given me enough to work with while I practice for a career in voice over! I will use the training suggestions as suggested, and see where this takes me. Thank you!

Beth Gianinni

Thus far; a real ear-opener! Here are genuinely useful insights, and techniques to put immediately into service.

Tim Guy

Very precise and concise! I found that I had changed in a quick and surprising way!

Very well done. Properly organized, clear and useful. It's improved our teleprompter skills immensely.

Peter Axtell

The information given in this course was simple but powerful. It was explained well and succinctly, so no time was wasted on fluff or filler.

Jennifer Stogner-Lee

Nice class - thanks a lot - made me pick up my microphone and start an old recording software to practice some story telling

Hannes Wissing

Only just started but so far so good. Some great tips, very well explained. In particular, I like how there are exercises throughout, with an emphasis on practice. Looking forward to progressing with the course!

Update: Finished the course and very impressed. Just listened to the difference between my 'after course' recordings and my 'before course' ones and the improvement is dramatic. Thanks!

Steven Burns

Easy to follow, good clear instructions and makes it simple!

Andrew Taylor

This is clearly a man who, besides his talent and beautiful voice, knows his stuff and is willing to share it. Though voice over and voice acting can be described and exercised in many and deeper ways, I'm happy to have come across this course :-)

Stratakis Loannis

Very clear instruction, good production quality. Excellent.

Shane Mac Donnchaidh

It goes to the very essential and the pace is perfect.

Julia Su

Like the instructor is by my side

Thomas Elliott

It's been 3 days and about 5 hours, I already love what I'm learning. I can notice improvement in my voice already. Let's power on. Totally worth it. Thank you Steve!
